What is 3Story? It is our way of life.

3Story® is about relationships. It is a way of seeing how the relationships we have with other people and God can be connected and grown. We pray that the Lord will help us move into a way of living that seamlessly connects our relationships with others to a God who desires to be known and followed in every area of our lives. No relationship is unaffected by a 3Story approach to life.

3Story is not an evangelism tool or method, it is who we want to be and how we want to live. In YFC, 3Story is our living operating system. Our hope is that it becomes our DNA. Knowing that if we seek to abide deeply with Jesus everyday and stay saturated in His word, we will be ready and aware of the opportunities He gives us in a lost world. We focus on the "being" and the "doing" flows from there.

YFC/USA has 160 chapters impacting thousands of communities, and is one of 101 member countries of YFC International.
